The sloping pitched roof is made up of corrugated sheet cast on beams in laminated wood and overlying cast of reinforced concrete, such as to prevent any kind of danger for the external areas.

The internal lighting system consists of LED lighting devices, supported by a photovoltaic system.

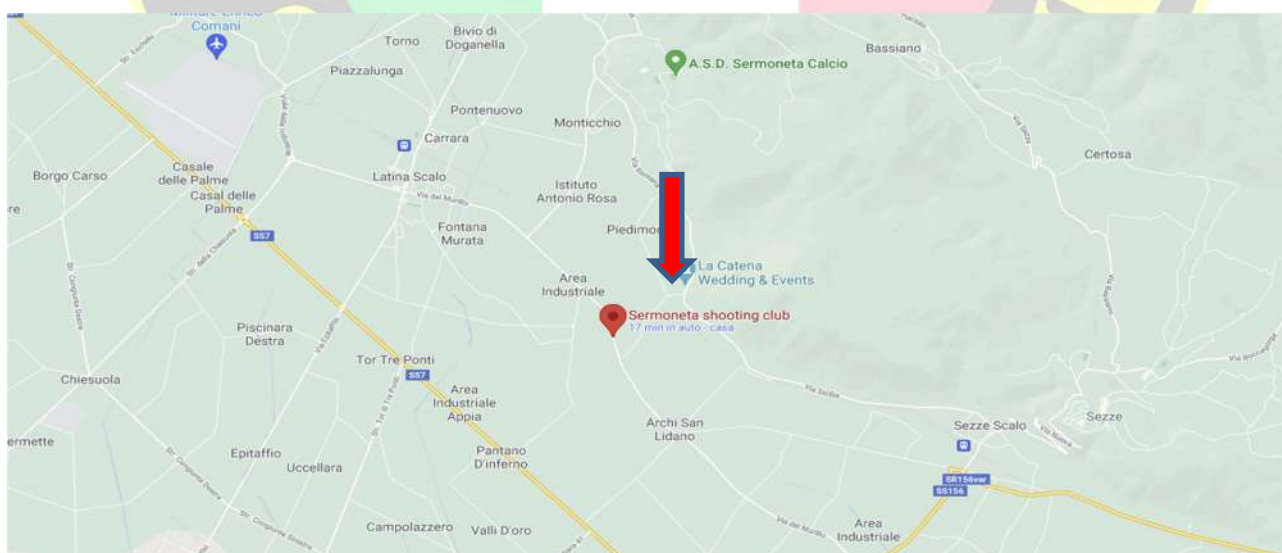

The structure is completed by a reception and first room-reception, a large parking area (250 parking spaces), an internal dining-room with external veranda capable of hosting more than 100 people, a reserved bar service, a Courses Room (30 seats) complete of a multimedia screen and personal computer, 3 separate toilet groups (women - men - disabled), infirmary compartment and doping control.
